Subject: Land Division Weekly Report

WEEKLY REPORT
Region 9
Environmental Protection Agency
Week of 1/30/2017
Land Division

Highlight of Past Week

Significant Items for Next Week

Red Hill Hawaii Proposed Legislation: On January 25, State Senator Mike Gabbard introduced a bill designed to dictate upgrade and operational requirements at the Navy's Red Hill Fuel Storage Facility. Deliberative Process (b) (5)

Enforcement (b) (7) (A)

(Linder x23369)

Internal to Region 9

Gila River Concurs with Plymouth Tube Final Remedy: During the week of January 30, we received concurrence from the Governor of Gila River Indian Community (GRIC) on the final RCRA remedy for the former Plymouth Tube facility. This consultation is the culmination of 10 years of partnership with GRIC Department of Environmental Quality on investigating and remediating TCE groundwater contamination. Interim measures have significantly reduced the plume and soil vapor extraction has removed soil gases. The

final remedy is Focused In-Situ Chemical Oxidation (ISCO), followed by monitoring, and natural attenuation. (Angela Sandoval x23831)

The Value of Food Event: On February 1, we participated in a Rockefeller Foundation and BSR convened discussion on the Value of Food: Opportunities to Engage Consumers on Food Waste. Participants included Whole Foods, General Mills, Albertsons, Sodexo, NRDC, Stop Waste, and SF Environment. In follow up, participants will contribute to a joint action to reduce consumer food waste. (Heller x23074)

Working with Limited English Proficient Populations: On January 31, we participated on EPA's Community Resource Network webinar series. We spoke about the role of promotores (community health/outreach workers) in informing farmworkers about their protections from pesticide exposure in the workplace. We were joined by Juvenal Solano of the Mixteco Indigena Community Organizing Project, a R9 community partner who is helping us deliver pesticide safety messages to farmworkers who may only speak Mixteco (an indigenous language from southern Mexico). HQ representatives provided information on resources available to assist with translation and other strategies used to effectively engage limited English proficient populations. (Estrada x23493)

Lead Activities in Hawaii: [REDACTED] Deliberative Process (b) (5)

[REDACTED] Enforcement (b) (7) (A)

[REDACTED] . (Jang x74252)

Other Information
